Christ is the centre of our school community where we live, love and learn together.

Thursday 6th March 2025

Dear Family,

Year 6 Home Learning

Each child in Year 6 is preparing well ahead of their next round of Mock SATs Tests in March and April. We are confident that the children will demonstrate their best efforts in May. We fully understand that there are worries when it comes to tests or exams and all Year 6 staff will be supporting as much as possible to reduce the stress and uncertainty some may feel.

As we move into the final three half-terms of Primary School, part of our responsibility at school is to prepare all children to be as 'secondary ready' as possible. This is a huge step, and many know that it will naturally require all children to organise their work and timetables more independently. As teachers, we will be encouraging the children to demonstrate this moving forward.

All children are expected to:

- Read regularly at home, with diaries signed. This is a crucial skill.
- Learn weekly spellings.
- Complete English comprehension homework and online My Maths Homework
- Be prepared for extra-curricular activities.

Many Year 6 children are making huge steps towards their transition to secondary school, with many more balancing their exciting hobbies and chances to explore around their schoolwork.

Opportunities have been offered for children to catch up in areas of learning, however, there are growing numbers of children who are not completing homework on-time, reading as much as is expected or ensuring they are prepared for school activities or extra-curricular clubs.

A separate slip will be issued to those children who have not completed online homework - some pieces dating back to September.

If you have any questions or concerns about out of school learning, please do not hesitate to contact the Year 6 staff.
