Digital Art Half Term Home Learning for Reception to Year 6

Aiste Stancikaite is a Lithuanian born digital artist currently based in Berlin.

Aiste's work often pairs **highly textured** and **detailed pencil drawings** with **digital art.** She creates images with a focus on **detail** and **texture**. Aiste loves strong, simple images, using just a few, strong colours, which have a simple background. This helps the image stand out. Aiste loves to draw people, buildings and nature. She thinks carefully about where the image is positioned on the page. She also LOVES to create **red** art work!

Look at some of Aiste's art work below. **Can you see where she has used pencil drawing and where she has used digital art work?**

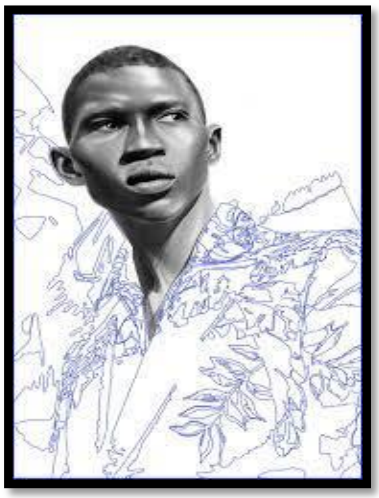

Your task is to get inspired by this fabulous artist!

Can you use bold, simple colours, careful pencil drawings or photography and plain backgrounds? Can you use digital artwork like **Aiste** ?

Why don't you have a go at some of the apps below so that you can add in some digital art to your drawing? You could take a photo of your drawing and add digital art work to it or you could alter a carefully taken photo of yourself, another person something from nature or architecture:

Tayasui Sketches

PhotoDirector

animate photo (age 4+)

Photoshop express (age 4+)

Pixlr – photo collage effect

Work by yourself or with an adult and have fun! Get creative and produce a piece of artwork that you are proud of. We can't wait to see them after half term!

Deadline for submissions is Friday 11th March. Don't forget! Teacher's email addresses can be found on the 'Who's Who' page of our school website if you'd like to submit your artwork via email.

Good luck, love from your teachers x
