Monday 1st March 2021

LO: I can find how many altogether.

Before we begin…

Have a selection of objects, tens frame, number line or part whole available for your child.

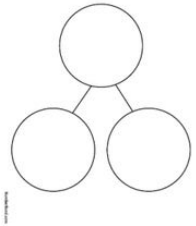

Ask your child to look at the sum on the screen, read it. Your child can then choose a way to work out the answer.

Once they have done this, we ask that they record this in their books or on paper by writing the sum and the answer.

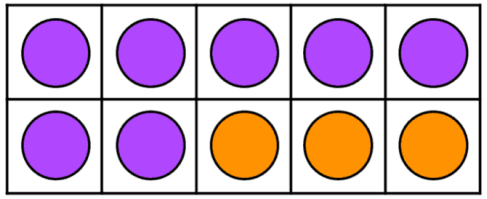

Continue this for the questions on the PDF.

Let's go…

Read the sum together.
Choose a way to work out the answer.
Write the sum and the answer down.

3 + 5 =

2 + 5 =

6 + 4 =

1 + 8 =

7 + 1 =

3 + 3 =
