Partitioning

We can split the apples into 2 parts.

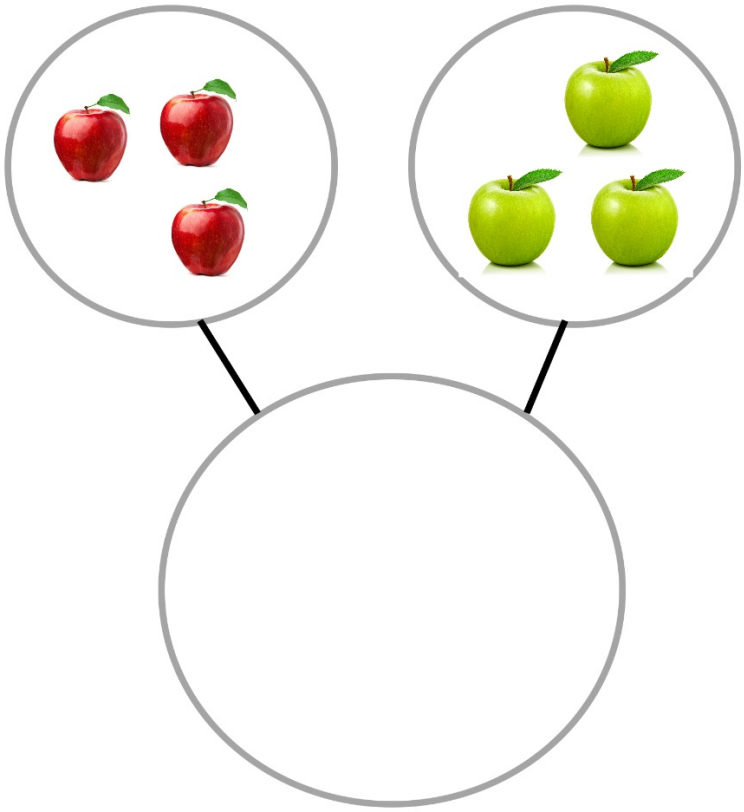

6 is the whole. 4 is a part and 2 is a part.

4 + 2 = 6

6 is the whole. 3 is a part and 3 is a part.

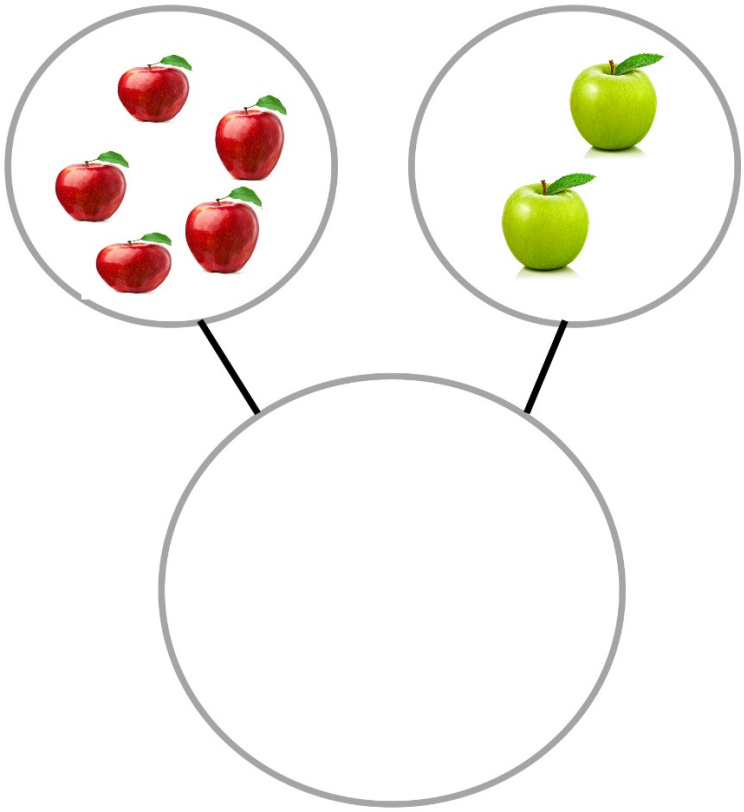

3 + 3 = 6

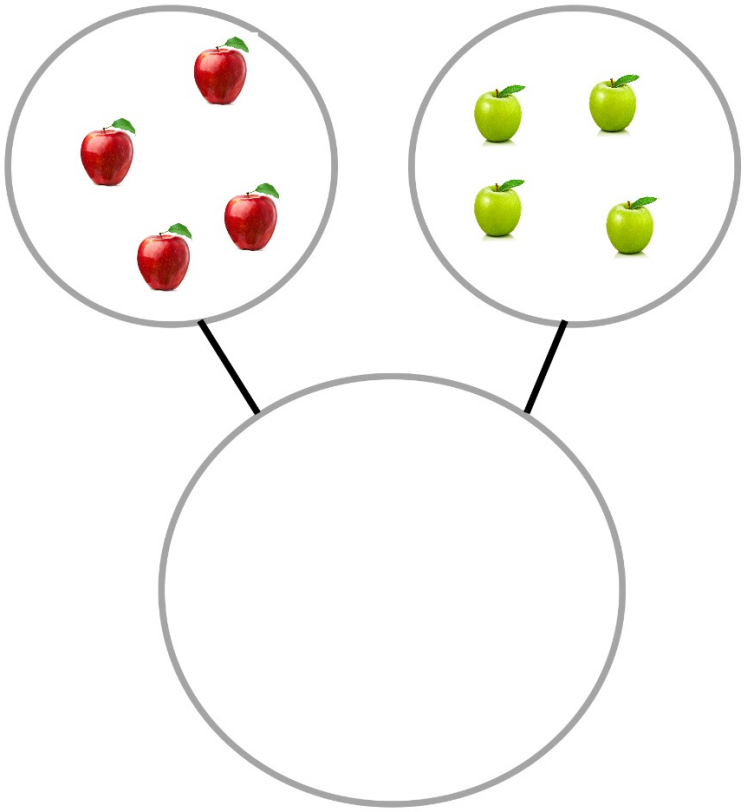

7 is the whole. 5 is a part and 2 is a part.

5 + 2 = 7

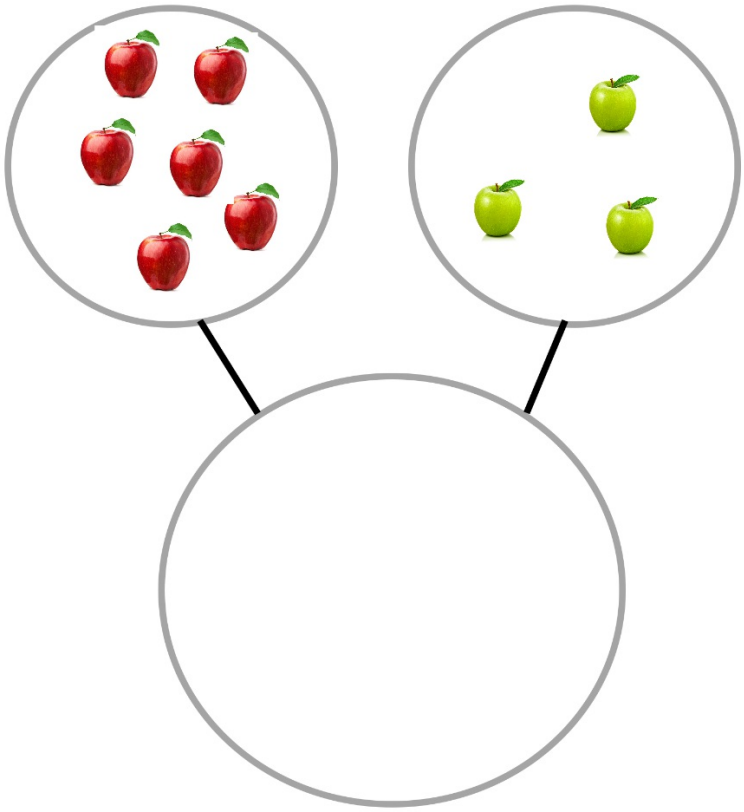

8 is the whole. 4 is a part and 4 is a part.

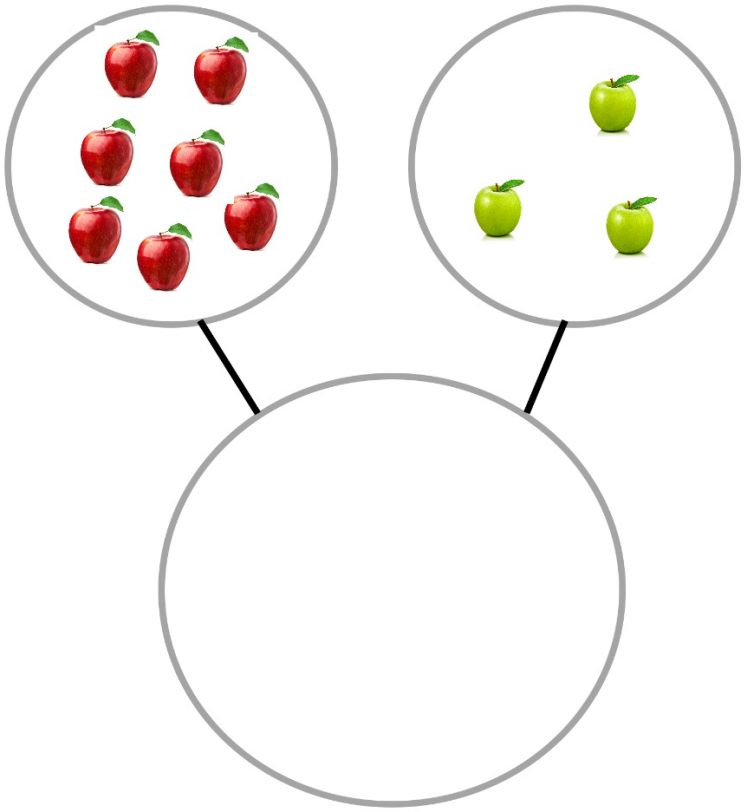

4 + 4 = 8

9 is the whole. 6 is a part and 3 is a part.

6 + 3 = 9

10 is the whole. 7 is a part and 3 is a part.

7 + 3 = 10
