Wednesday 20th January 2021

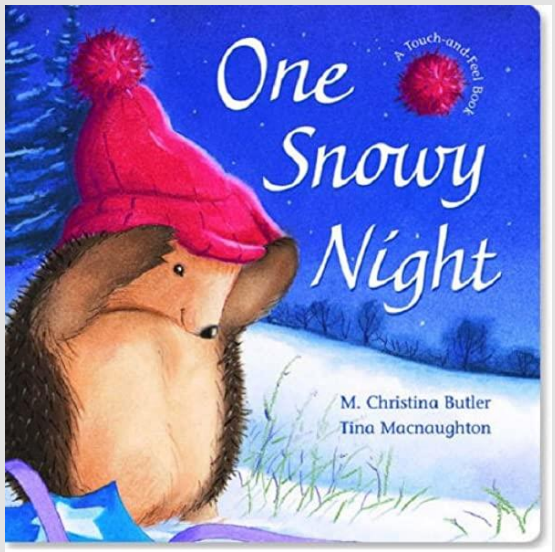

LO: I can order the story.

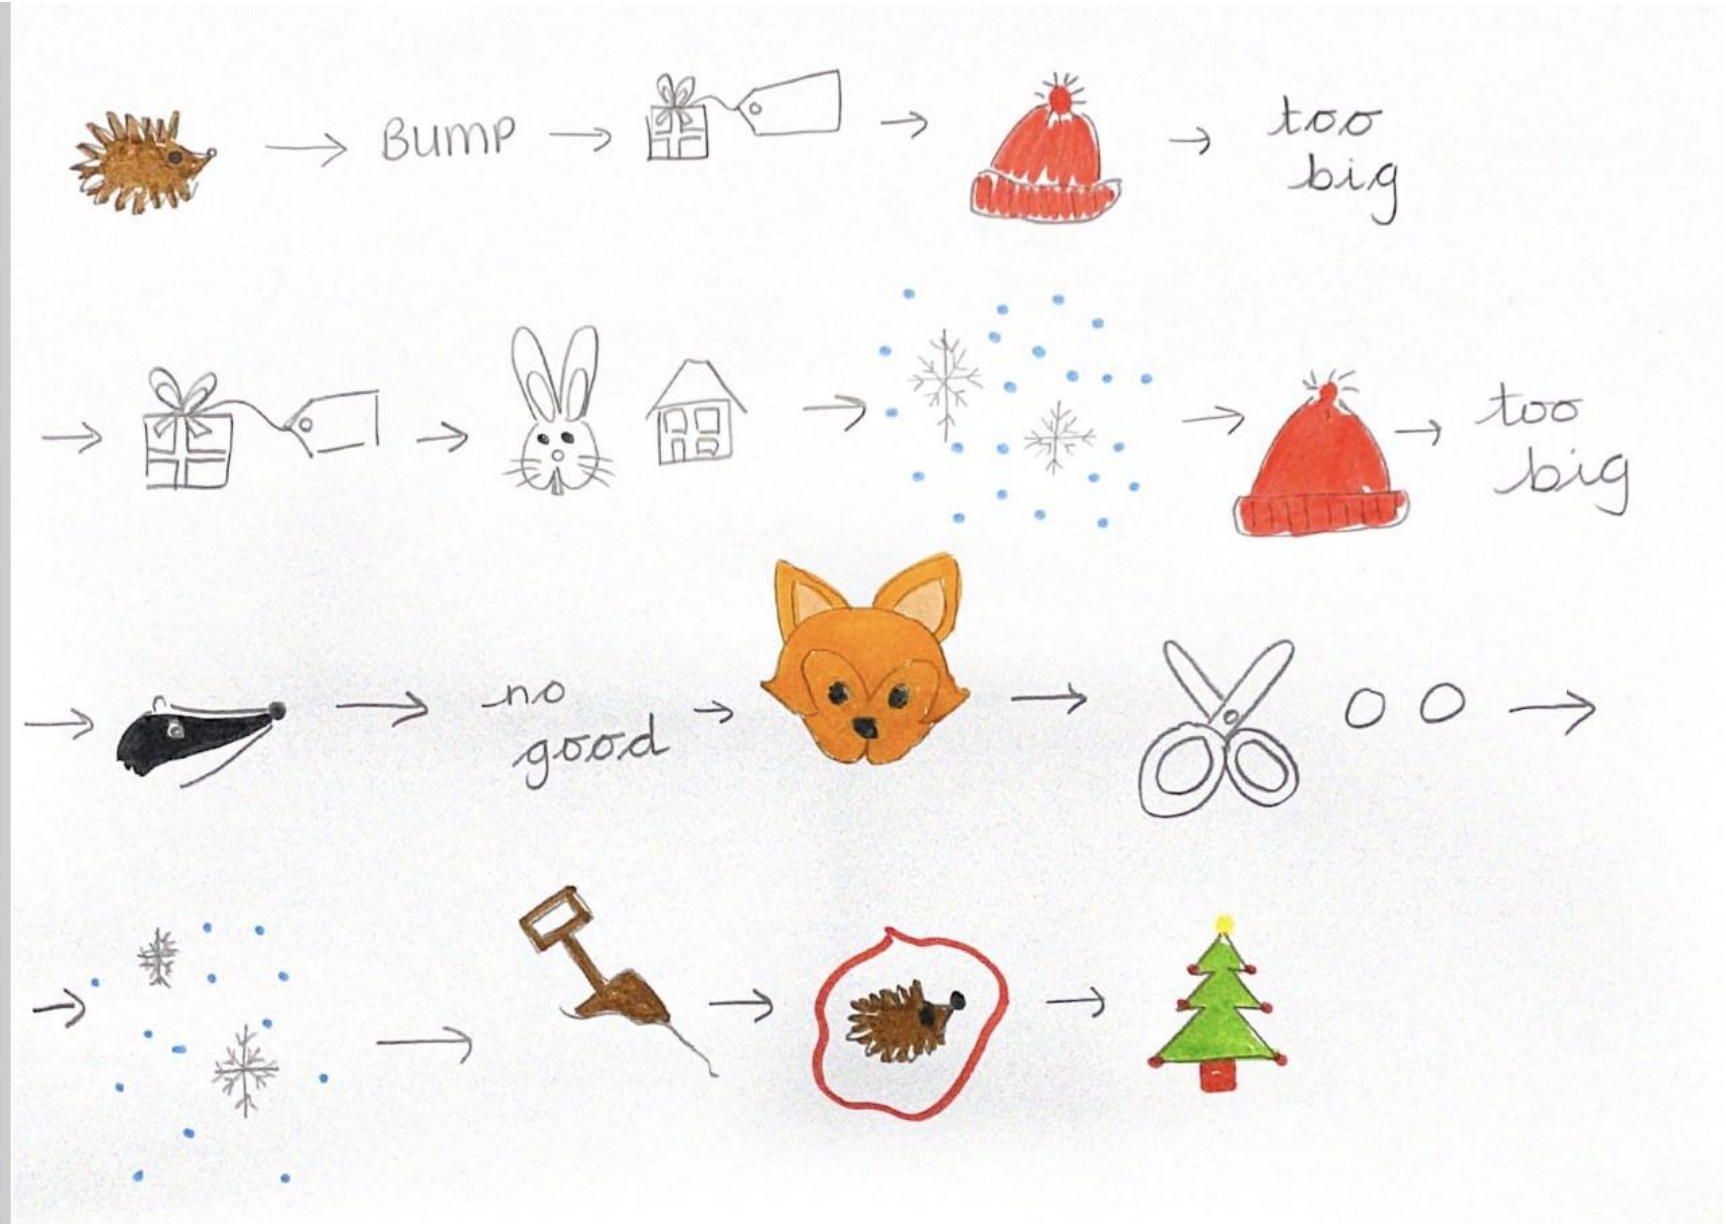

In today's lesson the children will be drawing their own story map. This will only be images today.

A story map helps the children sequence the story as a plan for future writing about the story. This will be used for next week's lessons.

We have included an example of the story map on the next slide for you to have a look at with your child.

Make sure you begin your lesson with our talk for writing story. The video of this is still on the school website and youtube.

Bump
too big
too big
no good
