

Stay Safe

Year 3D Internet safety rap

I was playing online when what did I see?

A stranger popped up to talk to me,

"Just make me a friend; please agree,"

Is it safe? Is it safe?

A loud voice cried.

If you don't know the person, they might have lied.

So I didn't press add, it's easy to do

If you don't know them, don't let them know you.

Stay safe, stay safe

When you play on line

Play with the friends you see all the time.

No violent games, no chat lines,

Stay safe, stay safe,

When you play online!
