Comparative adjectives...

We use comparative **adjectives** to show change or make comparisons:

This car is certainly better, but it's much more expensive.
I'm feeling happier now.
We need a bigger garden.

We use the suffix 'er' to make some adjectives compartive.

This is useful is we want to compare what 2 things are like in our writing. Look at the examples below...

tall → taller

small → smaller

light → lighter

short → shorter

warm → warmer

young → younger

Can you write some of your own sentences comparing things?

Here are some examples:

I like both of my coats but this one is warmer.
